Introduction to Chemical Engineering Computing

My interest in computing in chemical engineering education began in earnest when I got an Apple II+ computer in the fall of 1979. Here is a Youtube video (Early Apple II+) showing a program my son (in high school) and I made in 1982 showing how you could draw on the screen and do mass balances for systems with recycle.

Introduction to Chemical Engineering Computing

Chemical engineering students and chemical engineers are being asked to solve problems that are increasingly complex, whether the applications are in refineries, fuel cells, microreactors, or pharmaceutical plants. Many years ago, students wrote their own programs, first in the FORTRAN programming language, then in languages like MATLAB®. With the growth in
