## Psychology

Psychology is the science of behavior and mind (not to be confused with neuroscience, which studies the neural underpinnings of psychological phenomena ex. neural circuits). Psychology includes the study of conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope. Psychologists seek an understanding of the emergent properties of brains ...

## Young adult (psychology)

A young adult is generally a person ranging in age from their late teens or early twenties to their thirties, although definitions and opinions, such as Erik Erikson's stages of human development, vary. The young adult stage in human development precedes middle adulthood. A person in the middle adulthood stage ages from 40 or 41 to 64. In old age, a person is 65 years old or older.

## Twitpic

Dear Twitpic Community - thank you for all the wonderful photos you have taken over the years. We have now placed Twitpic in an archived state.

## APA Reference Style

(Informally Published or Self-archived Work, Manual, p. 212) Individual web page. Since web pages and documents are similar to print, references to them include the same elements such as author, date, title, etc. Note that proper names and acronyms are capitalized.
